C 000	Initial Comments Report by Suzanna Fay DHSR Construction Section conducted a Biennial Survey on August 6, 2015 from 3:20 PM to 5:22 PM at the above referenced facility. DHSR records indicate the home was first licensed on August 6, 1997 as a Family Care Home for six ambulatory Residents (able to evacuate and respond without any physical or verbal assistance during a fire or other emergency.) Based on this information we are requiring the home to maintain compliance with the following: the 1992 Rules for Family Care Homes T10: 42C, applicable portions of the 2005 Rules 10A NCAC 13G for Family Care Homes and the 1996 (1997 Revision) North Carolina State Building Code - Section 419.2 - Residential Care Homes. At the time of our visit, we cited deficiencies that require an acceptable plan of correction. They are as follows:	C 000		
C 152	Floors 10A NCAC 13G .0314 FLOORS (a) All floors in a family care home shall be of smooth, non-skid material and so constructed as to be easily cleanable. (b) Scatter or throw rugs shall not be used. (c) All floors shall be kept in good repair. This Rule is not met as evidenced by: 1. Observations revealed that the floor tile in the dining room was cracked and broken at the threshold to the corridor. Have a qualified technician repair the damaged floor. Provide documentation of the repairs through photos or copies of receipts or work orders.	C 152

C 152	Continued From page 1 2. Observations revealed that the carpet was worn and separating at the seams in several locations. These locations include: a. The L-shaped corridor between the living room and dining room. b. Bedroom 3 running parallel to the front wall. c. The threshold to Bedroom 5. d. In the bath off of Bedroom 4, the carpet is pulling away from the tub edge. Have a qualified technician repair or replace the carpet where damaged. Provide documentation of the repairs through photos or copies of receipts or work orders. 3. Observations revealed that the flooring in the bathroom off of Bedroom 4 was soft and the carpet around the tub was damp. Have a qualified technician investigate the moisture issues and make the necessary repairs to the flooring in this bathroom. Provide documentation of the repairs through photos or copies of receipts or work orders.	C 152		
C 153	Houskeeping And Furnishings-Clean, Repaired SECTION .0300 - THE BUILDING 10A NCAC 13G .0315 HOUSEKEEPING AND FURNISHINGS (a) Each family care home shall: (1) have walls, ceilings, and floors or floor coverings kept clean and in good repair; (2) have no chronic unpleasant odors; (3) have furniture clean and in good repair; (e) This Rule shall apply to new and existing homes.	C 153

C 153	<p>Continued From page 2</p> <p>This Rule is not met as evidenced by:</p> <ol style="list-style-type: none"> 1. Observations revealed a large water stain on the ceiling in the office between the overhead light fixture and the air vent. Have a qualified technician investigate for leaks and make the necessary repairs. Provide documentation of the repairs through photos or copies of receipts or work orders. 2. Observations revealed a stress fracture at the ceiling between the living room and the corridor to Bedroom 2. The ceiling finish was damaged along the crack. Have a qualified technician repair the ceiling. Provide documentation of the repairs through photos or copies of receipts or work orders. 3. Observations revealed that the bathroom off of Bedroom 1 had a strong odor of urine. The Resident occupying this room has a pet cat and the litter box is kept in the bathroom. The bathroom floor is carpet. Interview with Staff revealed that the cat was urinating on the floor. Take measures to eliminate the odor. Provide documentation of the measures taken. 4. Observations revealed several small black spots on the walls opposite and adjacent to the shower in the bathroom off of Bedroom 2. Have a qualified technician treat the finish and paint the walls. Provide documentation of the repairs through photos or copies of receipts or work orders. 5. Observations revealed flaking and peeling paint indicating moisture problems on the wall over the shower and along the bulkhead in the bathroom off of Bedroom 4. Have a qualified technician determine the source of the moisture and make the necessary repairs. Provide 	C 153

C 174	Continued From page 4 1. Observations revealed that the smoke detectors in Bedrooms 3 and 4 were chirping indicating low batteries. Install batteries in the detectors and insure that they are working properly. Provide documentation of the repairs through copies of receipts or purchases. 2. Observations revealed that the refrigerator in the kitchen had rusted out areas around the handles and at the bolts. Replace the refrigerator. Provide documentation of the repairs through photos or copies of receipts or purchases. 3. Observations revealed that the toilet seat for the toilet in Bathroom 2 was too small for the fixture. Have a qualified person install a toilet seat that fits. Provide documentation of the repairs through photos or copies of receipts, purchases or work orders. 4. Observations revealed that the floor vent in Bathroom 2 was rusty. Have a qualified person replace the floor vent. Provide documentation of the repairs through photos or copies of receipts or work orders. 5. Observations revealed that the cover for the overhead light fixture in the office was falling off. Have a qualified person secure the light cover. Provide documentation of the repairs through photos. 6. In the Bathroom off of Bedroom 4, it was observed that the sink faucet and knobs were corroded and the finish was flaking off. The enamel on the sink was stained. Have a qualified technician repair or replace the sink fixture. Provide documentation of the repairs through photos or copies of receipts or work orders.	C 174

C 174	<p>Continued From page 5</p> <p>7. Observations revealed that the light over the shower in Bathroom 5 did not have a bulb or a cover to protect the fixture from moisture. Have a qualified person install a bulb and a cover. Provide documentation of the repairs through photos or copies of receipts or work orders.</p> <p>8. Observations revealed that the vinyl seal for the shower surround was pulling loose on the back wall of the shower in Bathroom 5. Have qualified technician repair the seal. Provide documentation of the repairs through photos or copies of receipts or work orders.</p> <p>9. Observations revealed that the finish on the vanity cabinet in the bathroom off of Bedroom 1 was delaminating and curling up and one of the knobs was missing. Have a qualified technician repair or replace the cabinet. Provide documentation of the repairs through photos or copies of receipts or work orders.</p> <p>10. At the time of this survey, water was pouring into the basement through two small holes in the foundation wall. The walls and floors were stained orange and the floor of the basement had about 1/2" of standing water. The sump pump was running but was not working properly to remove the water. Maintenance personnel were on site cleaning the gutters and determined that there was a physical plant leak. There was also standing water in the crawl space to the left of the basement stairs. Have a qualified technician repair the leak(s). Provide documentation of the repairs through photos or copies of receipts or work orders.</p> <p>11. Observations revealed that two of the vinyl ducts for the bathroom exhaust fans had fallen</p>	C 174
